# 22 Mtons of CO2 reduction?

Johan Bygge

Electrolux AB

EEDAL – London, 21st June 2006

*Thinking of you*

 **Electrolux**

**Our industry has achieved remarkable  
emission savings:**

**17Mtons CO2 reduction during the past 10 years**

**Almost 200 million old inefficient appliances  
are used by households**

**Replacing them could save 22 Mtons CO<sub>2</sub>**

**This is 6% of EU's Kyoto reduction target**
